defence, where he proved a tower of strength.

La Roche seemed a bit worried at first in the quarterback position, especially under punts, but he soon forgot that he was a bit nervous and played the same acrappy game that he did against the Tigers a week ago. La Roche ran the team very well and his choice of plays showed that he had judgment.

Neville played a wonderful game throughout. He ran well with the ball and cleaned up for Le Gore when the latter carried it. The combination worked hard, and these two men did the greatest part of Yale's ground gaining. They were powers on the defence, too, especially on forward passes and by their speed and judgment prevented Harvard from completing attempts for a possible victory.

The fact that Harvard was defeated does not go to show that it had any weak offensive team, for it had the same offence that has beaten Yale for four years. The difference was that Yale had a much better team than in Yale had a much better team than in Yale had a much better team than in the latter to general the aerial offence. Three passes in succession were no good, and Flower, who had replaced Horween, punted. A penalty of five yards forced Yale to kick to Murray on Harvard's 33 yard mark.

Harvard Gains on Forward Pass.

The fact that Harvard was defeated does not go to show that it had any weak offensive team, for it had the same offence that has beaten Yale for four years. The difference was that Yale had a much better team than in years, simply because it was taught how to play football in the right way and given a brand of confidence which does not know defeat.

Tad Jones set out on what every one supposed an impossible task. Followers

supposed an impossible task. Followers of football considered that a championship team in one year against a Rush and Haughton would be a miracle. Iones and Haughton would be a miracle. Iones went after the seemingly impossible with all the confidence in the world, and to-night has the satisfaction of never being a loser in a championship game.

Dr. Brides also deserves a great deal of credit for giving his line a defence which would not only stop but smother the heretofore dazzling delayed plays through the line.

Alcott must be able to impart end knowledge to others, for there has not

knowledge to others, for there has not been such an exhibition of brilliant end play on Yale field for a long time.

Succeeded, but in the main the plays were worked too slowly to succeed. Harvard gave the impression that it was a bit stale. It had evidently gone along too fast to meet the demands which it expected in the Cornell game, while Yale developed more slowly and reached the very height of its form this afternoon.

Legore did not get loose for many Legore did not get loose for many Legore did not get loose for many acore.

Charley Coolidge and the toss resulted in a gain of thirty-two yards that placed the ball on Yale's 35 yard line. "The game isn't over yet," Yale men were heard to say. Yale had shown itself to be none too effective against a passing attack. Such tactics had given the light Washington and Jefferson eleven two touchdowns and Yale was afraid.

Bond came to earth with a one yard plunge and Murray thought he would take another fling at the osone. Again the pass grounded. It was a long, aim less no account toss thrown in the direction of nowhere in particular, where no player was even nigh.

That thirty-two yard gain was a tremendous bait for Murray, and once more the manual to the pass grounded by the ball and raced twenty-five yards around left end in the third period and followed with the twenty yards around left end in the third period and followed with the twenty yards around left end in the ball was in Lafayette's possession within the running game Casey excelled the Yale star, while in plunging Legore could not hold a candle to the Natick star. However, neither came up to expectations.

For Yale, Gates, Black, Mosely, Church and Neville were the other shire ing lights. For Harvard, Harte, Sweetser, Horweef and Caner shared major honors with Casey.

That developed in the form this after moor.
